

The Plan

FOOD IS YOUR MEDICINE

Plan Guidelines

All sauces are suggested. Please consult with me if you would like to use other seasonings.

Beet carrot salad- grate 4-5 carrots and 1 small beet. Should make 4 servings- stores well in Tupperware for a week. Please dress with lemon and evoo during the cleanse for best liver gall bladder health

Spices: Please include these good digestive/anti-inflammatory spices whenever you would like. You can try most salt-free blends as long as they don't have paprika or licorice

- Basil, Black Pepper, Cardamom, Cayenne, Cinnamon, Cumin, Ginger), Rosemary, Turmeric

Portions- *Unless portions are noted please eat until you are full*

- Manchego or Sheep's milk parmesan (pecorino romano): 1-2 tbsp per serving.
- Goat's cheese: 1.5 oz
- Nuts: unless noted is a handful, which is roughly 1 oz

Carrot ginger soup- our anti-inflammatory soup and freezes very well- please consult with your nutritionist on when it's best to use. Carrot soup does best when you have a protein rich breakfast like flax or eggs.

Snacks- you may always replace snack that is mentioned with The Plan Trail mix- 1/8th cup sunflower seeds and 1/8th cup dried cranberries.

Dessert- is 1 oz and please make sure it's below 65%

Butter- you can add it when it says evoo but please do not sauté with butter unless you use a low heat. Please limit to 1 tbsp a day. Do not have during the cleanse.

EVO- You should be consuming 3-5 tbsp of extra virgin olive oil a day. **Why is evoo so important?** The brain is 60% fat so we need good fats for cognitive functioning, our cell walls have a phospholipid barrier to we need fat for immune function- evoo is an omega 9 so it acts as a catalyst for anti-inflammatory omega 3 (present in your flax, chia and hemp seeds) and fat keeps you full longer!

Please HYDRATE! Your baseline is half your body weight in ounces - the best way to do this is drink a pint all at once. Please drink water in-between meals, not during as drinking during meals can impair your digestion--If you can leave a 45 window before and after each meal that is ideal. Do not drink after dinner and try to finish all water intake by 7:30 or 3-4 hours before bed. Please do not drink over the recommended water amount as this will affect kidney function and will cause water retention.

The Plan

FOOD IS YOUR MEDICINE

Supplements

Our standard detox includes MSM, a probiotic and a supplement to mitigate the effects of stress. We recommend a stress reliever for everyone as cortisol greatly impacts weight loss and testing.

If stress tends to lead more to depression or anger, sam-e would be better.

If stress leads more to anxiety or disturbed sleep, then lemon balm would be better.

Magnesium citrate is great for occasional constipation, especially after a food reaction.

If you are using MSM and/or sam-e, there often time is no need for additional liver support as they both offer mild liver support.

Standard dosages:

- MSM - 6 week course; Standard dosage is based on weight (3,000mg up to 180lbs 4,000mg up to 400lbs 5-6,000mg over 300lbs)
- Probiotics - as needed (when you have a reaction)
- A stress reliever:
SAM-e (if stress leads more to depression or anger) OR Lemon Balm (if stress leads more to anxiety or disrupted sleep)
Standard dose for SAM-e is 600mg, 1x day, as needed. Standard dose for Lemon balm is 1500mg, 1x day at 5pm, as needed
- Magnesium Citrate CAPSULES (if constipation is an issue) - standard dose is 600mg to gently release

The Plan

FOOD IS YOUR MEDICINE

The Plan

FOOD IS YOUR MEDICINE

General Protein, Food and Testing Information

For more information on general plan guidelines please reference the Intro to The Plan

Protein Ranges

Breakfast — 10-40 grams of protein

Lunch — 15-25 grams of protein (stay with 15 unless you are an athlete)

Dinner — 25-60 grams of protein (most women do best with 35-45 grams)

Dense Food Guidelines

1 dense grain carbohydrate a day MAX (rice or bread)

1 animal protein a day MAX

1 bean a day MAX

If you want to try more than one serving of these per day you can plug a larger portion in for a test day!

Combination Tests

Combining animal protein, grain or legumes together at the same meal is a test. Example: rice (grain) and chicken (animal protein) or bread (grain) and eggs (animal protein). Coconut Milk and animal proteins are a test.

Good Low Reactive Sources of Protein:

Broccoli- 5 grams per cup- fine chopped

Kale - 6 grams per 2 cups cooked- fine chopped

Sunflower seeds- 6 grams per oz (good source of selenium and calcium)

Pumpkin seeds- 7 grams per oz (great source of zinc for your immune system!)

Almonds- 8 grams per oz

Cheese- 6 grams for soft and 8 grams per hard per oz

Chickpeas- 5 grams per 1/2 cup

Rice – 5 grams per 1 cup

Chia- 5 grams per 2 tbsp (A great source of omega-3's!)

Cream of Broccoli Soup – 8g per 16oz

The Plan Caesar – 5g per 2 tbsp

Lentils – 1 cup cooked has 18 grams

Cashews – 1 oz has 5 grams of protein

Hemp – 2 tbsp has 7 grams of protein

Tests

Never test when weight is up. Omit the test that day and come back to it later.

Menus- raw and cooked vegetables

In winter we always have either a cooked vegetable or a soup with lunch to aid digestion. Dinner always has cooked vegetables and a raw veg salad as raw vegetables contain enzymes. In summer we move to just salads with minimal amounts of cooked vegetables. If you feel that just having a salad makes you feel a little bloated increase the amount of cooked vegetables or add soups back in!

The Plan

FOOD IS YOUR MEDICINE

Lettuce

Safe lettuces are baby romaine, boston lettuce, red leaf lettuces, green leaf lettuce, frisee, and small amounts of radicchio. All other lettuces are a test. Any mixed greens blend that has arugula, watercress, tat soi or spinach are a test. Colder vegetables like romaine and iceberg lettuce will slow weight loss or cause weight gain. Do not consume.

Recipes

Flax Granola

(makes 2-4 servings)

1 cup water
2 cups whole flaxseeds
1 tbsp agave nectar
2 tsp ground cinnamon
1 tsp ground cardamom
1 tsp pure vanilla extract
1/2 tsp nutmeg
1/2 cup raisins

Preheat oven to 275F degrees. Combine water and flaxseeds in a medium bowl and mix well. Let sit for 30 minutes and mix again. Add agave, cinnamon, cardamom, vanilla extract and nutmeg to flaxseeds and mix thoroughly.

Spread granola in a thin layer on a baking sheet and bake for 50 minutes. Reduce oven temperature to 225F degrees. Cut sheet of granola into clusters, flip and bake an additional 30-40 minutes, until thoroughly dry. Add raisins and store in airtight container.

Consume within 2 weeks.

Carrot Ginger Soup

Recipe makes 5 quarts

It can be cut down or many clients love divide into portion out and keep in the freezer!

1 tbsp ground cinnamon
1 tbsp ground cumin
1 tbsp freshly ground black pepper
1 tsp ground cloves
1 tsp cardamom
1/2 tsp turmeric

The Plan

FOOD IS YOUR MEDICINE

1/2 tsp allspice
7 quarts water
5lb carrots, chopped
2 large red onions, chopped
3 large zucchinis, chopped
8 cloves garlic, peeled
5 to 6 inches fresh ginger, peeled
2 tbsp extra virgin olive oil

Combine Cinnamon, cumin, black pepper, cloves, cardamom, turmeric, and allspice in a dry skillet over medium-low heat and cook, stirring constantly, for 30 seconds. IN a large soup pot, combine water, carrots, onions, zucchini, garlic, ginger, and olive oil; add toasted spices. Bring water to a boil and then let simmer for 45 minutes, until carrots are soft.

Reserve 2 to 4 quarts of the broth for future soup stocks. Transfer remaining soup to a blender in batches and puree.

Note: You can add one 14oz can of full-fat unsweetened coconut milk and 5 to 6 Vietnamese chili peppers while cooking for a creamier, spicier soup!

Spicy Coco Sauce

This recipe makes 4 to 6 servings (1 1/2 cups); It can either be cut down or frozen for future meals! Many Planners freeze it in ice cube trays for a quick, flavorful solution for vegetable sautés!

3 tbsp extra virgin olive oil
1 large onion, chopped fine
4 to 5 cloves garlic, minced
2-inch piece fresh ginger, peeled and grated (roughly 1 tbsp)
2 tsp ground cumin
1 tsp ground cinnamon
1 tsp freshly ground black pepper
1 tsp coriander
1/2 tsp allspice
1 (14 oz) can full-fat coconut milk
4 tbsp Sriracha, or more for extra spice
1 tbsp brown sugar
Optional: 1 lemongrass stalk, cut into 1-inch pieces

The Plan

FOOD IS YOUR MEDICINE

In a large saucepan, heat olive oil over medium heat. Add onion and garlic and sauté until they start to turn brown. Add ginger, cumin, cinnamon, pepper, coriander, nutmeg, cardamom, and allspice and sauté for 1 minute at low heat, until spices start to smell fragrant. Add coconut milk, Sriracha, brown sugar, and lemongrass, if desired, stirring for 30 seconds. Reduce heat and simmer, stirring for every 5 minutes, for 15 to 20 minutes, so flavors can fully integrate. Remove lemongrass. Serve immediately or let cool and then freeze.

Blueberry Pear Compote

(Makes 2-3 servings)

No almonds - 10g protein for 2 servings or 7g per 3 servings

With almonds - 14g protein for 2 servings or 9g per 3 servings

1 cup blueberries

1 ripe pear

1-1 ¼ cups water

½ cup chia seeds (20g protein)

1/8 cup almond slivers (8g protein; omit if reactive to almonds)

1 tbsp agave

Cinnamon to taste- suggested ½ tsp can add cardamom, nutmeg, cloves too (all great digestives)

Chop the blueberries and pear and let simmer for 8-10 minutes in a pot of water with cinnamon and agave.

Remove pot from heat and add chia seeds, and stir frequently for 2 minutes. You can serve warm or refrigerate. The compote can also be frozen so feel free to make big batches!

Cream of Broccoli Soup

(Makes 6-8 servings, 8 grams protein per 16oz)

3 tbsp butter or evoo

1 large onion chopped

1 tbsp dried sage

1 tsp cumin

½ tsp dried celery seed

2 cups homemade chicken broth (see The Plan Cookbook) or water

2 cups water

1 can full-fat coconut milk

8 cups broccoli, chopped (about 4 heads of broccoli)

The Plan

FOOD IS YOUR MEDICINE

4 cups zucchini, chopped (about 2 medium zucchini)
1 small to medium avocado
1 tbsp Sriracha -optional
Ground black pepper to taste

Sautee onion and spices in 3 tbsp of butter. Add in all ingredients and cook until vegetables are tender, approximately 25-30 minutes.

Add in avocado, blend and serve! For a less creamy soup, add more water.

The Plan Smoothie

(Makes 1 serving, 10g protein)

1 ripe pear
½ cup berries
¼ avocado
¼ cup chia
Rice Dream (RD) or Silk Coconut Milk (SCM)
Option- 1 tsp honey or agave
Option- vanilla extract or cinnamon

Fill Blender with enough RD or SCM to fill to 16 or 20 oz. Blend. Ice is not recommended if you have thyroid dysfunction.

The Plan Hummous

(20g of protein for entire batch)

2 cups drained well-cooked or canned low sodium chickpeas, liquid reserved
1/4 cup extra-virgin olive oil, plus oil for drizzling
2 cloves garlic, peeled
Sea Salt and freshly ground black pepper to taste
1 tbsp. ground cumin, to taste, plus a sprinkling for garnish
Juice of 1 lemon

Put everything except the parsley in a food processor and begin to process; add the chickpea liquid or water as needed to allow the machine to produce a smooth puree. Taste and adjust the seasoning (you may want to add more lemon juice).

Serve, drizzled with the olive oil and sprinkled with a bit more cumin

The Plan

FOOD IS YOUR MEDICINE

Apple Streusel

10 grams per serving

Streusel Topping

1 ½ cup almond flour

2 tbsp brown sugar

1 tsp cinnamon

¼ cup unsalted butter, room temp (you can use avocado oil to make it dairy free)

Apple Filling

3 apples, cored and chopped into 1/2 inch pieces

1 tbsp brown sugar

1 tsp cinnamon

½ tsp cardamom

¼ tsp cloves

4 eight oz. baking ramekins

Preheat oven to 350. In a small bowl mix all ingredients for streusel topping by hand or with hand mixer.

In a medium bowl combine all apple filling ingredients and mix well. Add apple mixture to mason jars and pack down with ½ inch of streusel topping. Bake for 25-30 minutes until streusel topping is lightly browned. Serve warm or refrigerate.

Top with almond slivers or 2 tbsp chia.

Zucchini nosh

No protein

I love babaganoush, but like many of my clients, I am reactive to eggplant. Subbing zucchini was a natural idea with summer's bounty and thus zucchini-nosh was born!

1/4 cup extra virgin olive oil

1 large white onion chopped fine (approx. 2 cups)

1/4 cup cumin

1 tbsp. pink Himalayan sea salt

1/8 cup water

5 large zucchinis chopped (approx. 10 cups) oil for baking sheet

The Plan

FOOD IS YOUR MEDICINE

optional: 1 cup sunflower tahini

Add oil to a large skillet on medium heat and add onion, cumin and sea salt. Stir until spices are thoroughly mixed and then mix in water. Lower heat to lowest setting and let simmer for 30 minutes stirring often.

Add zucchini to the onion and mix well. Take zucchini/onion mixture and spread on a well-oiled baking sheet. Bake at 325 for 40 minutes.

Remove from zucchini from the oven and add to a medium mixing bowl. Mix well. The zucchini will break down to a chunky texture. Optional, add 1 cup sunflower tahini and mix well.

Sunflower Tahini

24g for entire recipe or 4 grams per 6 servings

1 cup sunflower seeds (24g protein)
1/4 cup extra virgin olive oil
1/4 cup water
1 garlic clove, peeled
2 tbsp. lemon juice
dash sea salt
optional: add more water for creamier tahini

Add all ingredients to a food processor and blend until smooth, about 3 minutes. Serve immediately, or store and refrigerate up to 5 days.

Plan Caesar

24g protein for entire recipe of 2 grams per 8-10 servings

2 cloves garlic, chopped
1/4 cup evoo
4 oz goat cheese
2 tbsp lemon juice
2 tsp fresh black pepper
2 tbsp fresh dill or basil, optional

Soak garlic cloves in evoo overnight. Add all ingredients to food processor with an S blade and blend until smooth. Add water as needed for lighter dressing.

The Plan

FOOD IS YOUR MEDICINE

Basil Escarole Soup

No protein

- 1 large white onion, fine diced
- 1/8th cup dried basil
- 1/2 tsp pink Himalayan sea salt
- 1 tsp black pepper
- 1/4 cup evoo
- 1 liter homemade chicken stock or water
- 1 liter water
- 1 tsp agave or honey
- 2 lbs. carrots, chopped
- 8 cups zucchini pasta or 8 cups chopped zucchini, small
- 2 heads escarole, chopped

In a large soup pot sauté onion and basil in evoo. Add sea salt and black pepper and let simmer for 20 minutes. Add liquids, carrots and zucchini and let simmer for 20 minutes.

Add chopped escarole and let simmer an additional 10 minutes. Top with lemon or lime juice.

Vegetable Timbale

Makes 6 servings

- 1 large zucchini
- 1 red onion, peeled
- 3 cups kale, deveined
- 2 large carrots
- 8 shiitake mushrooms
- 4 to 5 oz goat cheese, crumbled
- 2 oz Manchego, grated

Preheat oven to 400F degrees.

Use a mandolin to slice zucchini, onion, kale carrots, and mushrooms as thinly as you can. In an oiled 9-inch baking dish, create layers as for lasanga, layering vegetables and goat cheese in this order: Zucchini, onion, kale, goat cheese, carrots and shiitakes, then top with Manchego. Bake for 30 minutes, until cheese on top is slightly golden.

The Plan

FOOD IS YOUR MEDICINE

Day One

Breakfast

1 cup Flax granola with ½ cup blueberries

Silk Coconut milk or Rice Dream- these will be your breakfast “milk” for the week-

Lunch

16oz of Carrot ginger soup – with handful of sunflower seeds

2 cups of Sautéed or steamed broccoli drizzle with lemon juice

Baby Romaine with ½ pear

Snack

1 apple

Dinner

Sautéed kale, 3-4 carrots, onion, zucchini, shiitakes, and broccoli with spicy coco sauce Grated Carrot and raw grated beet salad with handful of pumpkin seeds

When you make the spicy coco sauce: make the sauce, add all the vegetables to it and let it simmer for 10 minutes.

Day Two

Breakfast

Flax with ½ cup blueberries

Lunch

16oz of Carrot ginger soup with handful of sunflower seeds

2 cups of Sautéed or steamed

Baby romaine with ½ diced apple

Snack

1 pear with 8 almonds

Dinner

Leftover sautéed kale and veggies with 1 cup basmati rice with pumpkin seeds
beet/carrot salad with sunflower seeds

The Plan

FOOD IS YOUR MEDICINE

Day Three: Lentils

Breakfast

Flax with choice of ½ cup blueberries or ½ pear

Lunch

Baby romaine with carrots and pumpkin seeds
16oz of Cream of Broccoli soup

Snack

12-15 almonds

Dinner

1 cup Lentils (18g) with 2 cups cooked kale
Oven roasted zucchini, carrots, onions, garlic and Italian herb blend
Baby romaine with 1 handful of sunflower seeds

Day Four: Cheese *(you may now have one cup of coffee in the morning and wine at night with or after dinner)*

Breakfast

Flax Granola with ½ cup berries, ½ apple or ½ pear

Lunch

Leftover roasted vegetables with 1 cup of steamed broccoli on a bed of baby romaine with pumpkin seeds

Snack

Plan Trail Mix 1/8th cup sunflower and 1/8th cup Craisins

Dinner

Rice Salad- 1 cup basmati rice with almond slivers and 2 cups sautéed kale
Baby Romaine or frisee with carrots and ¼ avocado and 1.5 oz of goat cheese
Steamed or sautéed yellow squash with lemon and dill

The Plan

FOOD IS YOUR MEDICINE

Day Five: Test Exercise *(You may now add dessert and sea salt in moderation)*

- **beginner 4-6 min ~ intermediate 10-12 min~ advanced 15 min**

Breakfast

The Plan Smoothie

Lunch

Green leaf lettuce with radicchio, carrot/beet salad and sunflower seeds
16oz of Cream of Broccoli soup

Snack

Carrots with 2 tbsp raw almond butter
Or ½ apple

Dinner

Lentil Dinner or Rice Salad
Sautéed zucchini, yellow squash with onion or leeks and basil finish with lemon and 1 oz manchego

Day Six: Protein day

Breakfast

Flax with choice of ½ cup berries, ½ apple or ½ pear
Or 1 – 1.5 cups of Blueberry Compote

Lunch

Baby romaine with radicchio, apple, ¼ avocado, handful of pumpkin seeds and 1oz of goat cheese
lemon basil escarole soup or cooked yellow squash with onions

Snack

½ apple
Or Plan Trail Mix

Dinner – choose one protein to test

3 eggs with sautéed kale, 1 cup beans with 2 cups sautéed kale, or wild white fish

Grilled or sautéed vegetables- zucchini, yellow squash, carrots, onion, radicchio

Carrot beet salad with almond slivers and fresh herbs of choice (suggested dill, mint or basil) and ½ oz of goat cheese

The Plan

FOOD IS YOUR MEDICINE

Day Seven: Test Exercise

- beginner 4-6 min~ intermediate 10-12 min~ advanced 15 min

Breakfast

Flax Granola with ½ cup berries, ½ apple or ½ pear

Or

Smoothie

Lunch

Leftover vegetables (reheat) on a bed of green leaf with 1oz of almond slivers and 1oz of goat cheese

Snack

1 oz salt free potato chips

Or Carrots and Zucchini-noush

Dinner

Any Approved protein (make sure to rotate)

Sautéed vegetables- broccoli, carrots, zucchini with garlic

Greenleaf or Frisee and ½ pear salad with pumpkin seeds and fresh herbs of choice

Day Eight: Test New protein

Breakfast

The Plan Smoothie

Or Compote

Lunch

Leftover sautéed vegetables with ½ cup of broccoli on a bed of green leaf with goat cheese and sunflower seeds

Optional basil escarole soup

Snack

Carrots with 2 tbsp raw almond butter

Or Plan Trail Mix

Dinner

Test new protein

Roasted, Sautéed, Grilled or steamed vegetables that have been approved with 1 tbsp grated manchego

Baby Romaine or frisee, grated raw beet and fresh herbs

The Plan

FOOD IS YOUR MEDICINE

Day Nine: Test Exercise

- beginner 4-6 min~ intermediate 10-12 min ~ advanced 15 min

Breakfast

Apple Streusel

Or Blueberry pear compote

Lunch

Baby Romaine with leftover vegetables (reheat), 2 tbsp of Plan Caesar dressing, ¼ avocado, and pumpkin seeds

Snack

½ apple with optional zucchini-noush

Or Plan Trail Mix

Dinner

Any approved protein

Baby Romaine with grated raw beet

Sautéed zucchini or yellow squash, carrots and leeks

Day Ten: Test new protein

Breakfast

Flax Granola with approved fruit

Or Blueberry pear compote

Lunch

16oz of Cream of Broccoli Soup

Red leaf or Green leaf lettuce with carrot/beet salad and 1 tbsp Plan Caesar dressing with 1oz sunflower seeds

Snack

½ apple with optional zucchini-noush

Or ½ apple and raw almond butter

Dinner

Test New Protein

Sautéed kale with basil and lime

Any lettuce used thus far with ¼ avocado and fresh herbs

The Plan

FOOD IS YOUR MEDICINE

Day Eleven: Test increased exercise time by 20%

Breakfast

Blueberry Pear Compote
Or Smoothie

Lunch

1 cup of steamed or roasted broccoli with grated carrot, ¼ avocado, any lettuce used thus far 1 tbs of Plan Caesar dressing, 1oz of sunflower seeds and dried cranberries

Snack

1/2 apple with raw almond butter
Or Carrots with raw almond butter

Dinner

Any approved protein
1 cup Vegetable timbale with one cup of zucchini
Any lettuce used thus far with ¼ apple and fresh herbs

Day Twelve: Test new vegetable

Breakfast

The Plan Smoothie
Or
Blueberry pear Compote

Lunch

Any lettuce used thus far ¼ chopped apple, ¼ avocado with pumpkin seeds and almond slivers
Basil Escarole Soup

Snack

Plan Trail Mix
Or
Carrots and Plan Caesar

Dinner

Approved protein
Test new vegetable sautéed, steamed, or grilled and mixed with other approved vegetables- use herbs of choice
Any lettuce used thus far with fresh herbs and grated raw beet

The Plan

FOOD IS YOUR MEDICINE

Day Thirteen: Test increased exercise time by 20%

Breakfast

Flax granola with ½ cup approved fruit
Or Compote

Lunch

Leftover vegetables with sunflower seeds, grated carrots on any lettuce used thus far
Cream of Broccoli Soup

Snack

Pumpkin seeds and ½ apple
Or 1 oz Low Sodium Potato Chips and Plan Caesar

Dinner

Approved protein
Any lettuce used thus far with fresh herbs and optional radicchio
1 cup vegetable timbale and one cup of zucchini

Day Fourteen: Optional test Bread

Breakfast

Any approved breakfast
Or Test Bread with raw almond butter and ½ piece of fruit

Lunch

Basil escarole soup
Salad with 15 grams of vegetarian protein
[Example of hitting protein goals:](#)
[1.5 oz of goat cheese and sunflower seeds](#)
[2 cups sautéed kale and 1 oz pumpkin seeds](#)
[2 cups cream of broccoli soup and 1oz almond slivers](#)

Snack

Carrots and Zucchini-noush
Or Plan Trail Mix

Dinner

The Plan

FOOD IS YOUR MEDICINE

Approved protein

Roasted, Sautéed or Grilled Vegetables that have been approved

Any approved lettuce with fresh herbs

Day Fifteen: Test increased exercise time by 20%

Breakfast

Blueberry Pear Compote

Or Warm Flax pg. 70 in the cookbook

Lunch

Carrot Ginger soup

Salad with 15 grams of vegetarian protein

Snack

½ apple

Or 12-15 almonds

Dinner

Approved protein with Any approved lettuce with fresh herbs

Sautéed kale with onions and zucchini and new approved vegetable

Day Sixteen: Test new snack

Breakfast

Blueberry Pear Compote

Or Streusel

Lunch

Salad with 15 grams of vegetarian protein

Basil escarole soup

Snack

Test 1oz Pecans

Or

Test new fruit- ½ portion (ex:1/2 cup mango or blackberries)

Dinner

Approved protein with any approved lettuce with fresh herbs and grated carrots

Steamed, Grilled or sautéed approved vegetables

The Plan

FOOD IS YOUR MEDICINE

Day Seventeen: Test exercise up to 30 minutes

Breakfast

Flax granola with ½ portion fruit

Lunch

Basil escarole soup

Salad with 15 grams of vegetarian protein

Snack

Any Approved Snack

Dinner

Approved protein

Sautéed kale with yellow squash and leeks

Any approved lettuce with herbs of choice

Day Eighteen: Test new vegetable or new restaurant

Breakfast

Streusel

Or

Blueberry pear compote

Lunch

Basil escarole soup or leftover reheated veggies

Salad with 15 grams of vegetarian protein

Snack

1 oz low sodium or no salt potato chips with 1/8th cup homemade guacamole

Or

New approved fruit

Dinner

Test restaurant

The Plan

FOOD IS YOUR MEDICINE

Day Nineteen: Test Exercise up to 30 minutes

Start working on your menus for days 21-25

Repeat favorite day thus far with most weight loss

Day Twenty: No Test

Repeat favorite day thus far with most weight loss

The Plan

FOOD IS YOUR MEDICINE

Phase 2: Making Choices

Please create your own menu using this template as a guideline, e-mail it back to your nutritionist to review with you and put in your file.

Optimal Rotation of Protein

chicken 3x a week- every other day
lamb - 3x a week- every other day
eggs- 3 x a week every other day
beans- 3x a week- do not have more than once daily
duck breast- 2-3x a week every other day
fish and seafood - 2 x a week 3 days apart
pork- 1-2 x a week
steak 1x a week
veal- VERY high reactive

Vegetable Rotation

Program your meals so that you do not repeat vegetables. For example, if you have broccoli at lunch, do not have broccoli at dinner. Try to always have at least 2 cooked vegetables with your dinners.

Seeds

Try to start programming seed free lunches and dinner or test alternate seeds and nuts

Testing New Lunch Options

You can test ½ cup of lentils and 2 cups cooked kale (15 grams). An fyi beans and broccoli is a test as it can cause too much gas in some people. We try to, at this point, start having seed free lunches and dinners to give your body optimal rotation.

Peas are another vegetable I like people to test at lunch only- 1/2 cup is 4.5 grams of protein and could replace broccoli or sunflower. If you are very active, testing rice would be good on your workout days as a breakfast or lunch option. Rice and fish in the same day is an easy pass- rice and other animal protein in the same day is a harder test to pass.

Wild rice is a good test too with a ½ cup equaling roughly 4 grams of protein. Wild rice is a grass not a grain so may be easier to have on days you have animal protein.

Portions

All the portions we use on the plan are the least reactive amounts. If you would like to use larger portions please test them first. Nuts and seeds should be 1 oz per portion. Only consume the seed once during the day ex: if you have sunflower seeds at breakfast do not have at lunch or dinner

The Plan

FOOD IS YOUR MEDICINE

Natural Sugars —

Most people do well with moderating their intake of natural sugars such as fruit, potatoes, sweet potatoes and winter squashes. Roasted vegetables fall into this category as well, as the natural sugars are increased when cooked for a long period of time. Find your own balance by starting off with roasted veggies twice a week.

Now that you have passed your 20 days please limit your orange vegetables- carrots, butternut squash etc to once a day. More than that is a test and would do better on a day you work out.

Carrot Ginger soup does best after a high protein, low sugar breakfast like flax.

Combination Tests

Combining animal protein, grain or legumes together at the same meal is a test. Example: rice (grain) and chicken (animal protein) or bread and eggs is a test as well. Coconut Milk and animal proteins are a test. Coconut milk and fish or seafood is a low reactive test. Rice is a high reactive test with most proteins (even in different meals) including beans, with the exception of fish and seafood which is a lower reactive test.

Bread and potatoes do well with animal protein (with the exception of eggs) and the pairing of potatoes and animal protein is not a test.

In winter we always have either a cooked vegetable or a soup with lunch to aid digestion. Dinner always has cooked vegetables and a raw veg salad as raw vegetables contain enzymes.

Cooked vegetables aid digestion, just eating raw vegetables will hamper digestion. When you hamper digestion you will experience weight gain or weight stabilization. Women should have at least 2 cups of cooked vegetables with their meals.

Time to get started!

- Create a list of all the foods that have worked for you
- Create a list of foods that are mildly inflammatory and please limit their usage to once every 7-10 day and always follow with a friendly day
- Retest all foods that tested as inflammatory in 3-6 months. You may be able to reduce sensitivity to this food and have on occasion, always follow with a friendly day

Protein Ranges

Breakfast — 10-40 grams of protein (**stay at lower end range unless you are an athlete**)

Lunch — 15-25 grams of protein (**stay at lower end range unless you are an athlete**)

Dinner — 25-60 grams of protein

Dense Food Guidelines

1 dense grain carbohydrate a day MAX (rice or bread)- more is a test

The Plan

FOOD IS YOUR MEDICINE

1 animal protein a day MAX- more is a test

1 bean a day MAX- more is a test

Day 1 (No test)

Using the outline below, create a menu using your friendly foods.

Breakfast

Easy sources of protein are flax, seeds, nuts and nut butters, grain cereals, milk

Have with ½ piece of fruit

Lunch

Create a salad with 15-25 grams of protein

In winter add a soup or cooked vegetable to enhance digestion

Snack

Insert your favorite snack —having more than 1.5 oz of dairy is a test

Dinner

Approved protein

Approved salad

Approved cooked vegetables

In winter dinner always has cooked vegetables and a raw vegetable salad as raw vegetables contain enzymes that support digestion.

The Plan

FOOD IS YOUR MEDICINE

Day 2 (Test Exercise or Test New Vegetable)

Using the outline below, create a friendly menu (or use your favorite friendly day thus far) but test exercise as the new variable

Breakfast

Easy sources of protein are flax, seeds, nuts and nut butters, grain cereals, milk
Have with ½ piece of fruit

Lunch

Create a salad with 15-25 grams of protein
In winter add a soup or cooked vegetable to enhance digestion

Snack

Insert your favorite snack —having more than 1.5 oz of dairy is a test

Dinner

Approved protein
Approved salad
Approved cooked vegetables

Day 3 (No test)

Follow the guidelines of Day 1 to create another friendly menu.

Day 4 (Test new breakfast item)

Using the outline below, create a friendly menu but test a new breakfast item. Ideas are whole or lactose free milk, eggs or new fruit.

In winter we always have either a cooked vegetable or a soup with lunch to aid digestion. Dinner always has cooked vegetables and a raw veg salad as raw vegetables contain enzymes.

Breakfast

Easy sources of protein are flax, seeds, nuts and nut butters, grain cereals, milk
Have with ½ piece of fruit

Lunch

Create a salad with 15-25 grams of protein

Snack

The Plan

FOOD IS YOUR MEDICINE

Insert your favorite snack —having more than 1.5 oz of dairy is a test

Dinner

Approved protein
